

Service Package Evaluate

Proof of Concept, made fast and simple

Proof of Concept, made fast and simple

Is this service for you?

You're interested in ownCloud for your enterprise, but you have questions. Will ownCloud Enterprise Edition really work in your environment? Will you be able to use your own security infrastructure? Is it easy to work with? The only way to answer these questions with certainty is to try it. You could handle the evaluation by yourself, but that would use up valuable IT resources. You need a faster, easier solution.

The ownCloud Evaluate Service Package makes evaluation and proof of concept fast, simple and affordable. You gain hands on experience, deeper knowledge, and access to experts for detailed answers and assistance. Most importantly, you find out quickly if ownCloud is the right choice for you to regain control of your files.

How it works

The Evaluate Support Package consists of a ready-to-use virtual appliance preinstalled with ownCloud software, which can be installed seamlessly right into your virtualization platform of choice. Simply install the appliance, authenticate, and start using. The Evaluate package allows us to work with you to determine your success criteria, develop a structured plan and then execute the evaluation against it.

What's included

- **Structured Evaluation Plan build on your success criteria**
- **Architecture overview documentation**
- **Appliance installation and configuration**
- **Integration for out-of-the-box Enterprise Apps**
- **One day of remote consulting**

Benefits

- ① **Rapid Proof of Concept delivered against your success criteria**
- ② **Minimized time and disruption for IT operations**
- ③ **Assurance that the solution works in your environment, with your users**
- ④ **Best practices applied to your environment**
