

Service Package Training

Training for ownCloud Enterprise Edition

Training for ownCloud Enterprise Edition

Course description

In this training, the participants will be made familiar with the installation and administration of ownCloud Enterprise Edition. We will introduce you hands-on to the configuration of the standard features. We will give you an in-depth training on individual customisations, user and group administration as well as the usage of external storage. Synchronisation with mobile devices is also included in the program. For the training and installation, we will use a Linux environment (Ubuntu).

Target audience

You need to have basic knowledge of Linux system administration.

Requirements

Bring your own laptop/notebook. You will need a modern web browser, like Firefox or Chrome and a terminal client (e.g. PuTTY on Windows, iTerm on OS X, Linux users usually have all they need). Also, you will need a private/public SSH key pair.

Training location

ownCloud Office
Rathsbergstr. 17
90411 Nürnberg

Alternatively, we offer an exclusive In-House-Training. Please contact training@owncloud.com.
